Constructing India's Tomorrow since 1995

Balajee®
Infratech & Constructions Pvt. Ltd.

Vision

To become a leading, high-quality, trusted, time-efficient, and cost-effective infrastructure construction company to execute critical and large-scale projects of national and international importance.

Mission

We prioritize close engagement with our clients, providing personalized services that blend innovation with best industrial practices. Our commitment extends to nurturing exceptional talent within a value-driven culture. As a responsible corporate entity, we place great importance on the well-being of our employees, communities, and the environment.

ELEVATING ON

A PROGRESSIVE JOURNEY

Balajee Group is committed to laying tomorrow's foundations, today.

With an impressive track record spanning over 25 years, we have earned a reputation as a reliable, trustworthy, and highly valued partner for infrastructure development. Our competence lies in sophisticated construction methods as well as an innovative and creative approach to project execution. As an integrated infrastructure development company, Balajee Group operates across various sectors, including highways, power, steel, railways, refineries, petrochemicals, aviation, construction, and mining.

Our meticulous attention to detail and our ability to devise effective solutions for Infrastructure constructions projects have earned praise from most of our clients.Throughout the actual implementation of projects, we take charge of our capacity to self-perform various aspects of the work which grants us greater control over schedules, enabling us to effectively steer the project. At Balajee Infratech, we embrace transformations and optimize operations to match the dynamic infrastructure landscape of our country.

As we progress, we eagerly harness the extensive infrastructure possibilities within our nation and actively pursue avenues for fostering sustainable growth.

Message from

Board of Directors

Our Directors: Mr. Mukesh Dokania | Mr. Manish Dokania | Mr. Manoj Dokania | Mr. Ashish Dokania

We hope this message finds all of you in high spirits and good health.

Today, we want to take a moment to reflect on the incredible work that has been done as an Indian infrastructure company and express our heartfelt gratitude to all our stakeholders for their dedicated efforts. India's economy is expected to touch USD 10 trillion by the end of this decade - 2030 - and towards USD 15 trillion in ten years from now by 2034.

The Balajee Group firmly believes in nation-building and is prepared to tackle the complex requirements of infrastructure since they possess the necessary knowledge and abilities.

As the Balajee group, we have shouldered the immense responsibility of contributing to the development of Indian infrastructure. We understand the critical role infrastructure plays in the growth and progress of our nation, and we have embraced it with enthusiasm and passion. Our journey has not been without its fair share of challenges and obstacles. However, it is through our collective tenacity and steady commitment that we have been able to overcome these hurdles and truly make a transformative impact on the Indian infrastructure landscape.

We have played a pivotal role in connecting communities through the construction of roads and highways, ensuring seamless travel experiences by developing advanced runways and taxiways at major airports, and driving economic growth through mining and crushing operations across sectors.

Moreover, our commitment to specialized engineering services has led to groundbreaking innovations. For instance, we introduced India's first RE Wall in the mining sector, showcasing our dedication to sustainable practices and environmental responsibility. Additionally, our creation of India's first and unique Tailing Dam not only demonstrates our engineering prowess but also underscores our commitment to minimizing environmental impact.

We acknowledge the challenges we have faced, the hurdles we have overcome, and the milestones we have achieved together.

With gratitude and best regards,

Executed **100+**

Projects

We at Balajee Group are building dreams & shaping futures.

Our journey started in 1995 with mining work at Jamnagar Refinery, which is today the largest single greenfield refinery in the world, thanks to the contract awarded by construction giant Larsen & Toubro Ltd.

The Company

Overview

In 1995, the foundation for a transformative journey in modern infrastructure was laid by **Late Shri Pashupatinath Ji Dokania,** who established the Balajee Group. His vision was rooted in a commitment to innovation and sustainability, setting the stage for a company that would redefine industry standards. His leadership and foresight were instrumental in shaping the early success of Balajee Group, laying a solid groundwork for its future endeavours.

Looking ahead, Balajee Group remains steadfast in its commitment to pioneering sustainable practices and innovative infrastructure solutions. In line with our dedication to growth and progress, we are actively planning for future expansion opportunities within the infrastructure industry. This includes exploring new markets domestically and internationally where there is a growing demand for infrastructure development. Additionally, we are considering diversifying our services to include renewable energy projects or smart city initiatives as part of our expansion strategy. As a result of these efforts, we anticipate expanding our geographical reach while broadening our service offerings within the infrastructure sector over the coming years.

Sustainability and Quality

Balajee Group is committed to sustainability and quality in civil engineering, delivering exceptional infrastructure projects with precision, durability, and advanced technology.

Our skilled team upholds the highest industry standards, ensuring environmentally responsible and durable solutions. This dedication to sustainable excellence has earned us recognition and trust as a reliable industry partner.

Worker's Safety

Building a Secure Future: Balajee's Unwavering Commitment to People's Safety

At Balajee Group, Safety is our top priority, and we are committed to prevent accidents and ensure a safe and healthy workplace for all. Through regular training and resource allocation, we empower our employees to execute operations while prioritizing the safety of both the environment and community.
